

**WINTER STORM WARNING
UPDATE #4
JANUARY 26, 2026
9:40 AM**

The Public Works Department is still currently actively plowing. The overnight focus was on priority routes and secondary streets. Crews are now starting on parking lots and alleys. Tonight, the Public Works Department will be plowing the alternate side of the streets.

The City of Corning prioritizes its plowing and ice removal operations depending on weather conditions and resources available. In general, we plow priority routes first followed by secondary streets. In most cases, alleys and parking lots are plowed last.

Some reminders:

- Please comply with Alternate-Side Street Parking regulations.
- Please do not follow closely behind or try to pass plow trucks.
- Please do not plow or blow your snow in the roadway.
- Police dispatchers do not coordinate plow operations and do not have additional information concerning the operational status of plowing.
- Garbage collection will resume tomorrow with Tuesday through Friday pick-up.
- The Senior Citizens Center is closed today due to the storm.
- City Hall will open at 10:00 am today.

Thank you for your patience.
